IP=In Process: Students from the cohort listed have yet to graduate from the cohort year listed.

Programs are only required to provide data on the past 9 years/cohort or since the program was initially accredited, whichever is shorter.

* Graduation Rate is the program's Advertised Length of Completion which is how long the program is designed to complete as written.

** Job Placement Rate is the percentage of graduates from the cohort year that are employed utilizing skills learned in the COAMFTE accredited program.

*** Licensure rate is the percentage of graduates from the cohort year that have achieved ANY level of MFT licensure.

For Master's programs only, COAMFTE has established a benchmark of 70% licensure rate for each cohort.

+ The advertised time frame for this cohort has not lapsed, so it is labeled in process, although some students have graduated.

++ During this cohort, students were eligible for the LPC license in addition to the MFT license. Many chose the LPC license due to licensure costs at that time and availability of supervisors.
